- Bring indoor shoes and a water bottle
- VOLUNTEERS NEEDED** for library field trip

## WHAT'S HAPPENING IN OUR CLASS

This week we focused on building community and getting to know each other! We played a number of community building games and shared personal interests and stories.

In literacy, we will be developing our writing skills by focusing on strong sentences and importance elements of personal narratives. In math, we will be focusing on our number sense and exploring where math can be found in our world. During Inquiry, students will continue learning about what different communities they are a part of.
